## A. INTRODUCTION

The Pegasus Aqua MRET Activator combines the best of today's water technology with the convenience of a light and portable design to provide water that keeps putting life and health into your body wherever you go.

At the heart of the Pegasus Aqua MRET Activator is a patented technology called MRET (short for Molecular Resonance Effect Technology). MRET uses a unique way to resonate water that enables what we drink to be more quickly absorbed into our body. On top of that the water processed by Pegasus Aqua MRET Activator holds the following benefits for our bodies:

- Increased energy
- Increased oxygenation of cells
- Production of strong and flexible cells
- Slowing down of the aging process
- Suppression of bacteria and viruses
- Cleansing and healing of wounds

During the MRET process, subtle frequencies similar to the those which are found in special healing springs is imbued onto the water. These signature frequencies are anti-bacterial, anti-viral, anti- fungal and also enhances our cellular function. It is the only water that energizes and normalizes the body's pH-without adding any additives into the water.

The Pegasus Aqua MRET Activator is specially designed to make it convenient for anyone to have quick access to good and health-promoting water. With its light design and portability, you can bring it almost anywhere with you.

According to Kelly Barton, "water is the most neglected nutrient in your diet but one of the most vital." Many people are drinking far less water than they should. We hope that the Pegasus Aqua MRET Activator will bring health and wellbeing to you and your family.

You can visit our official website, [www.pegasusaqua.com](http://www.pegasusaqua.com). For more information about Pegasus Aqua MRET Activator resonated water.

## B. WHAT'S IN THE PACK?

Pegasus Aqua MRET Activator contains the following:

PEGASUS AQUA  
MRET ACTIVATOR

Regular Small  
Bottle Adaptor

2000 mL MRET Compatible  
Cold Water Jug

Type C  
Charging Cable

MRET ACTIVATOR  
Protection Pouch

## C. YOUR UNIQUE PEGASUS AQUA MRET ACTIVATOR QR CODE

To ensure non-compromising performance from the All New MRET Activators, Each and Every Pegasus Aqua MRET Activators are equipped with Original Polymer and Resonating Frequency Generator directly from Dr Smirnov, USA.

Every PEGASUS AQUA MRET Activator has been stamped with an individually unique QR Code that is managed on our secure database Servers.

You can securely check and verify your product authenticity anytime and anywhere and you will have immediate confirmation of the authenticity of your device by simply scanning the QR Code with any mobile device.

## D. TURNING ON THE PEGASUS AQUA MRET ACTIVATOR

*1st Step:* Fill up the Cold Water Jug with clean drinking water. Take Care not to exceed the water level beyond 2000mL mark. Place the MRET Activator Device to sit on top of the Water Bottle.

*2nd Step To turn on the MRET Device:*

Press and Hold for 3 to 4 seconds to put the MRET Device on standby Mode. (The device will beep 3 times and the button will light up Solid RED)

### **TO ACTIVATE THE MRET DEVICE**

While the Device is in Standby mode (Solid Red):

#### **For 30 minutes MRET Activating Cycle Time:**

Single Click on the Button Once — MRET Activator Resonance System will Start with one Beep sound and the Button Light will continue to Flash in Blue Light for 30 minutes

#### **For 60 Minutes MRET Activating Cycle Time:**

Double Click the Button

MRET Activator Resonance System will Start with two beep sound and the Button Light will continue to Flash in Green Light for 60 minutes.

At the end of the cycle time, the MRET Device will beep 6 times and return to its standby mode. The Button Light will be in Solid Red. Then it will auto shut down automatically, after 2 minutes of inactivity. The MRET Activated water is now ready for consumption.

Should you wish to Stop the PEGASUS AQUA MRET Activator halfway during any Activating Cycle:

- Press and hold the button for 3 to 4 seconds. The Activator will then Beep 6 times and it will go back to standby mode (Button light will show solid red color) and after 2 minutes of inactivity, it will auto shut down automatically.

## E. TURNING OFF THE PEGASUS AQUA MRET ACTIVATOR

To switch-off the MRET Device:

- When the Device is in Standby mode, it will auto shutdown after 2 minutes has passed if the button is not pressed.
- There is no need to press any button.

## F. TO CHARGE MRET ACTIVATOR DEVICE

- a) Plug in the USB Type — C Cable to charge the MRET device. While it is charging, the LED indicator will flash in RED color. Once it is fully charged, it will show a GREEN solid light.
- b) During usage, the battery LED at the back of the MRET Activator will show:

RED	=	Low Charge
YELLOW	=	Medium Charge
GREEN	=	Full Charge

*Note:*

*Although the MRET Activator can be used while it is being charged, it is recommended to Operate it when it is not in charging mode.*

## G. RESONATING DIFFERENT LIQUIDS

It is best to use one Cold Water Jug for resonating water, and use a separate bottle for resonating different liquids. For example, a separate bottle for oil, and another one for juice or wine. This will prevent the odor of these liquids from remaining in the bottle and affecting the taste and smell of the next liquid to be resonated.

### **USING OTHER BOTTLES**

You can use other bottles in place of the cold water jug. For bottles with small necks, fit the small bottle collar into the mouth of the bottle. Bottles to be used should be below 2.0 liters and not much taller than 25cm in height.

## H. TAKING CARE OF THE SYSTEM

To get the best from the Pegasus Aqua MRET Activator, familiarize yourself with its operation by reading and understanding this manual.

Should there be any queries, call your local representative or drop us a note at [enquiries@pegasusaqua.com](mailto:enquiries@pegasusaqua.com) for further assistance.

Keep the main activator unit clean and dry at all times.

### **NEVER IMMERSER THE MAIN ACTIVATOR UNIT IN WATER.**

- It is best to wipe clean the bottle, the bottle cap and collars after use.
- Use Light pressure when pressing on the Activator Button.
- Periodically wash them with a mild detergent and dry them with a clean cloth.

## **I. PRECAUTIONS AND DEVICE SERVICE ALARMS**

Keep the Pegasus Aqua MRET Activator unit and resonated liquids away from objects with high magnetic fields. For example, the TV, Microwave Ovens or computers, etc.

DO NOT try to dismantle the main activator unit.

There are no user-serviceable parts in the Pegasus Aqua MRET Activator.

The warranty is immediately VOID if the unit is tampered with.

During the resonating process, do not place the system under direct sunlight.

Ensure that the area at the bottom of the main activation unit is not blocked or obstructed in anyway.

When the time comes for your PEGASUS AQUA MRET Activator to be serviced, it will send out a constant and periodic beep signal during the Activation cycle.

This is Service Alarm expected to trigger after approximately 3 years of constant daily usage.

When this Service Alarm shows up, please contact your nearest PEGASUS AQUA MRET Dealer to have it Serviced for Optimum performance.

You can find our contact details at [www.pegasusaqua.com](http://www.pegasusaqua.com)
